WHO WE ARE

Global providers of non-destructive testing (NDT) and coatings training, examinations and Level 3 services.

Blending the strong values of our parent organisation, the Institution of Mechanical Engineers (IMechE), with decades of industry knowledge and experience, we deliver professional, high-quality services to promote and improve the industry by developing well-trained, highly competent professionals and supporting them and their employers throughout their careers.

IMechE Argyll Ruane

IMechE Argyll Ruane is a world-renowned training and consultancy organisation. Established in 1985, we work with organisations of all sizes, from SMEs to multinationals, as well as self-sponsored individuals, around the world.

Following the acquisition by IMechE in 2012, we moved into our state-of-the-art facility in the heart of Yorkshire in Sheffield - the city of steel.

Our consultancy and training professionals use their extensive expert industry knowledge to deliver first-class training and consultancy services. With exceptional facilities and the latest equipment, we ensure our clients have an excellent experience and gain the skills required to perform thorough and competent inspections.

IMechE Fife NDT

IMechE Fife NDT was established in 2021, in Dunfermline, to support Scotland and the North of England, blending the values and practices curated by IMechE Argyll Ruane over 35 plus years, with local knowledge and expertise.

Our experienced and friendly team consistently provides first-class training and consultancy services, helping NDT and coatings professionals gain the skills required to perform thorough and competent inspections. This has enabled us to become the go-to training school for technicians and organisations alike in a relatively short period of time.

We are based in a modern facility just south of Dunfermline close to the Rosyth dockyard. Students will benefit from an excellent learning environment, with the latest equipment and facilities on offer.

### Basic Radiation Safety and Advanced Radiation Safety
- Non-Destructive Testing

### Eddy Current Testing
- Welds
- Pulsed Eddy Current (PEC)

### Magnetic Testing
- Welds, Castings, Forgings

### Penetrant Testing
- Welds, Castings, Forgings

### Radiographic Testing
- Welds and Castings
- Computed Radiography

### Ultrasonic Testing
- Welds, Castings, Forgings

### Advanced Ultrasonic Testing:
- Phased Array
- Time of Flight Diffraction
  - TFMI

### Visual Testing
- Welds, Castings, Forgings

### Weld Inspection

### NDT Appreciation

### NDT Recertifications
- NDT Refresher training

### NDT Recertifications

### Corrosion and Coatings

### Hot Dip Galvanizing Inspector

### Industrial Coatings Applicator Training Scheme (ICATS)

### Insulation Inspector

### Passive Fire Protection (PFP)
- Epoxy Coating Inspector

### Pipeline Coatings Inspector

### Protective Coatings Inspector

### ICorr Recertification
- Transition to ICorr Programme

LEVEL 3 CONSULTANCY SERVICES

Formed in 1999, our Level 3 Consultancy Services department is one of the longest running in the Non-Destructive Testing (NDT) industry.

Our Level 3 Consultants have a combined work experience of over 100 years, spanning a variety of industries, such as:
- Nuclear
- Aerospace
- Petrochemical
- Oil & Gas

We support clients all over the world, helping them to operate efficiently and in compliance with industry standards.

Certifications and Accreditations

Each of our Consultants hold a selection of Level 3 Certifications, including:
- ASNT NDT Level III
- PCN Level 3
- EN4179/NAS410 Level 3

We also hold customer and regulatory approvals from Rolls Royce, Airbus, BAE Systems, Safran, MTU and Form 4 Approval from the CAA and EASA.

How we can help

Our team can look after all on-site requirements for your organisation, offering you top-quality customer service, cost and time effective solutions, as well as easy access to an expert consultant.

Consultancy Services

- Act as the responsible level 3
- NDT Programme set up and management
- Advice on any aspect of non-destructive testing
- Solutions provision
- Meeting legal requirements
- Expert testimony provision

Training and Examinations

- Level 1, 2 and 3
- Initial, refresher, additional and bespoke training
- Creation of exam materials, in compliance with the employer’s written practice
- On-site invigilation of examinations, including, PCN, EN4179/NAS410, SNT-TC-1A

Auditing/Procedures/Techniques

- Internal auditing and support during external audits, e.g., NADCAP, ASME and CAA
- Procedure writing, review and approval
- Oversight/witnessing for operator compliance
- Technical document review
